

ALBERTO RIDOLFI

Tel.: +55 19 9200-40674

E-mail:

amsridf [at] gmail.com

Preferred method of communication: e-mail or WhatsApp/iMessage messages.

Remote only work.

Dual citizen Brazil/Italy, thus eligible to work for EU companies.

PROFILE

System Engineering, Development, SRE, DevOps, Security and Infrastructure, Networking and open source. Anything related to those subjects are my passion and my life purpose.

DESIRED AND APPROPRIATED JOB ROLES

Tech lead, software developer/programmer (Python and soon Golang), Systems architect, DevOps, SRE, DBA and systems and network administration.

DIVERSITY PROGRAMS

Eligible and applying through the company's LGBT-inclusive and neurodiversity hiring programs (autism spectrum/Asperger and narcolepsy).

SKILLS

Python, PostgreSQL, Linux, networking, security, AI tools. Interested in learning Golang, Kubernetes, Ceph and LDAP identity management with FreeIPA

EXPERIENCE

IT Leader at ABRANHI (Narcolepsy patients association) - current job (volunteer, non-profit, full-time)

I help them with their IT infrastructure, configuring servers, taking care of security measures, developing systems to help narcolepsy patients have access to health care with the help of technology.

Senior Systems administrator and developer at IBGE — 2016/2018

Collaborated with product owners and stakeholders to design, operate, and maintain infrastructure that reliably supported their needs.

Systems administrator at IMA — 2013/2014

Worked with software teams to adapt our infrastructure needs to make sure their software would work reliably.

Software developer at Ci&T — 2009/2010

Developed and evolved software for a bank in close collaboration with stakeholders to meet business and operational needs

Software developer at General Logistics Systems — 2008

Created internal applications to optimize their business processes.

Freelance programmer during high school — 2005

Created websites with PHP and MySQL.

CAREER BREAK

I had stopped working formally due to a health condition (narcolepsy), now well-managed, allowing a sustainable return to work with reasonable accommodations

EDUCATION

2012 - Bachelor degree in Systems Analysis and Development at the Polytechnic University of Campinas

OTHER INFORMATION

- I started programming when I was 11 years old
- During high school, I used to take freelance programming jobs for foreign clients. I also developed apps and websites for my school mates.
